**Sioux City Community School District
Executive Summary
Specification for Asbestos Abatement Project
August 27, 2012**

Purpose:

The purpose of this project is to abate the asbestos building materials from the Hoover School, Washington Elementary and the 6 residential properties located on the proposed new site for the Washington Elementary School.

Explanation:

Contact: Gordon Winterlin, 279-6662

By developing the specifications for the abatement the District will receive the best pricing by bidding in September for the work to be done in the fall, winter and spring.

- By grouping all of the buildings together best pricing will be received.
- This will be a seamless project with one contractor doing all the buildings.
- Contractor can eliminate the residential property when it comes available.
- Typical asbestos containing materials would be thermal system insulation, floor tile and mastic and roofing materials.

Strategic Plan Priority Area:

Educational Facilities.

Impact on Student Achievement:

This project will clear the properties mentioned above of all asbestos building material and make way for new schools to be constructed at these sites.

Recommendation:

That the Board of Directors approves the resolution to approve notice setting forth the time and place of a public hearing. A public hearing will be held at 6:00 p.m. local time, at the Educational Service Center, 627 4th Street, Sioux City, Iowa, on the 10th day of September, 2012, for the purpose of approving the specifications for abatement of asbestos building materials from the Hoover School building, Washington Elementary School, and 6 residential properties located on the proposed site for the new Washington Elementary School.
